ORANGE AND BLUE.

VOL. II.

AUBURN, ALA., WEDNESDAY, MARCH, 18 1896.

NO. 6. 7

The Base Ball Team.

At last our class games of football are over and we have begun to get the candidates for the base ball team in practice.

The chances for an excellent ball team this season, are I think very bright. The men seem to work with a snap and a dash which always characterizes a willingness in a man to work. They are, so far, quite prompt to report to the field for practice and this fact we are pleased to note for as our time is very limited we must get the most out of it we can.

The student body as a whole does not seem to take the interest in the work of the men they should. They do not come and watch the men work. Then too those who do come out have a tendency to guy the candidate and while we know that they mean nothing by it we wish that they would encourage the men rather than discourage them.

We wish to ask as a special favor of every man in the college that they will join hand in hand with us and help to put a team in the field of which we will be proud. One which I hope will be able to defeat and team we may run against this season. And I feel sure that with the co-operation of the students of the college we can be as successful in base ball as we were in football.

Do not think that because you may not play base ball that you have no interest in the team.

You have or at least you should have the interest of the team at heart as much as any of other department of the college.

Show your college spirit.

Come out and cheer the men in their work.

Your very attendance will help the men to better work by greater effort.

Challenges have already been received from the U. of Ga., U. of Ala., and the A. & M. College of Louisiana. The U. of South (Sewanee) and the Technological school of Georgia.

Why wont the faculty let us have more games?

W. R. T.

Three men on bases and Christian puts the ball over the left field fence. The first of the year.

AROUND THE BASES.

The U. of Ala's team has been practicing for the last three weeks.

Jennings, short stop of the Baltimore's will coach the Georgia team until April first.

Mason and Kyser are both doing some good work behind the bat and few are the bases stolen on either.

Williams got his first hits Saturday. Both were corking three baggers.

Kyser's three base hit to the right is the longest hit we've seen this season.

Our pitchers are all showing up first rate for so early in the season.

The double play from third to second to first by Wills, Tichenor and Christian was a beauty.

Arrington is hitting the ball right along and his fielding is first rate.

It looks as if it would be hard to hit over Christian's (Tree top) head and he does not deceive his looks.

Do you see the way Bill Christian is playing first base?

Glenn is not hitting as well as he should and Tichenor is in the same boat.

Harry Smith and Nelson are covering lots of ground in the out field and both are hitting quite freely.

Georgia seems to be having some good class games.

The uniforms of the team will be dark blue with orange lettering across the chest.

Term exams. have broken into our practice but after term the Varsity will be picked and played together every practice afternoon.

Virginia has twenty aspirants to places on the team of '96 many of them old players.

North Carolina has eight former players trying for the nine, besides a score of new men.

Hugh Duffey, the celebrated Boston captain, has been engaged to coach Virginia's ball team from March 1, to April 7. Virginia has three dates with Boston and two with Yale, University of Pennsylvania, Princeton, Georgetown and Cornell.—Red and Black.

The University of Pennsylvania has fifty-eight candidates for its team.

Morality of Colleges.

It is difficult and well nigh impossible for those who do not know students life intimately to gauge rightly the moral standing of any college. A few dissipated young men can give a whole class and even a whole college an unenviable name with the undiscerning public. But those who have studied undergraduate life closely know that these few students are only chips on the surface, and that their influence on deep, strong under current of college life is scarcely felt. Doubtless the custom of putting little restraint on the social life of student in most American colleges has resulted in some temporary harm. But the self-reliant manhood that it has developed in American young men has more than counterbalanced the harm.—Philadelphia Press.

Good for the Wirt Society.

The Wirt literary society has purchased a handsome carpet for their hall and it will be placed on the floor in a few days. It is almost entirely paid for and will increase greatly the looks of their hall. We commend the Wirts in their progress and trust that they may have years of prosperity. They are now equal to their rival society in every particular. They have clearly out-classed the Webs in both the oratorical contest and champion debate and there is nothing to prevent them from equaling or even exceeding the Web's in numbers and interest. After the present term is over they expect to meet regularly and some good work is expected in the next few weeks. Election of orators for commencement will soon take place and

already there is much talk among the men as to who would fill the places best.

Schools and Colleges

Should bear in mind that we have superior facilities for engraving Anniversary, Class-Day, and commencement invitations. Send for our samples and prices. We also make gold and silver medals. Send for our catalogue.

J. P. STEVENS & BRO.
Jewelers and Engravers, Atlanta, Ga.

For One Dollar

We will send you STAFFORD'S NEW MAGAZINE for one year, and besides will send you fifteen complete books for a premium—the whole fifteen books in fifteen separate volumes (handy pocket size, bound, not trashy pamphlets), are sent you by mail, postage prepaid, as soon as your subscription is received. In addition to this you get the magazine (chock-full of good home and general reading), once every month for twelve months. The premium books which you receive all together at once when you subscribe, are as follows:

The Scarlet Letter, by Nathaniel Hawthorne; *Under the Red Flag*, by Miss M. E. Braddon; *King Solomon's Mines*, by H. Rider Haggard; *The Corsican Brothers*, by Alexander Dumas; *The Black Dwarf*, by Sir Walter Scott; *A Noble Life*, by Miss Mulock; *A Study in Scarlet*, by A. Conan Doyle; *The Sea King*, by Captain Marryat; *The Siege of Granada*, by Sir Bulwer Lytton; *Mr. Meeson's Will*, by H. Rider Haggard; *The Wandering Heir*, by Charles Reade; *No Thoroughfare*, by Charles Dickens and Wilkie Collins; *The Great Hoggarty Diamond*, by W. M. Thackeray; *The Surgeon's Daughter*, by Sir Walter Scott, and *Treasure Island*, by Robert Louis Stevenson.

Send one dollar for STAFFORD'S NEW MAGAZINE for one year, and all of these fifteen great books will be sent to you by return mail. The Magazine will follow month by month for twelve months—but you get the premium books (all of them), right away. Remit by P. O. Order, Registered Letter or Express at our risk.

Term examinations!

A few more days the grind will
be on!

And then, the bulletin Board will
declare your fate!

The base ball crank is in his glory
and can be found on the campus
most any fine afternoon giving vent
to his pet expressions and opinions.

As yet the local devotees of the
National game have had little field
work, however, the interest manifested
by applicants for the 'Varsity is a
good indication that Auburn will have
a first class team in the field this
spring.

Judging from what knowing ones
say, our next Field Day, May 1st
promises to be unusually interesting.
There is an abundance of material in
college and some of last years records
will probably be smashed. The ad-

mirable equipment and location of
the new gym. will be an important
factor in developing the track team
and no time should be lost. Special
instructions will be given by Capt. B.
L. Scott to applicants for the gym.
team.

Each number of The Lotus comes
forth with new surprises. The idea
of a literary fortnightly for college
students is not more singular than the
manner in which it has been carried
out. A dainty magazine on tinted
paper with striking cover drawings
and curious picturings by college
youths makes a fit setting for a selec-
tion of the brightest stories and a few
verses from pens of undergraduates.
It is unconventional without being
decadent, and every number is expres-
sive of the free, daring and ambitious
spirit of today's college youth. It
may be prophetic of what is coming
in the great American literature of
the future. One thing is evident:
the influence that is to come from
those now in college walls will be
against the encroaching degeneracy
which is now threatening to take a
place. The magazine is published 24
times a year at Kansas City, Mo., by
college students attending several
Western colleges and universities.
\$1.00 per year.

We are pleased to note the renewed
energy in the Glee Club. After
slumbering for several months it has
awakened and promises to resume its
old time activity. As a student orga-
nization it is of too great value to
be neglected. The remembrance of
its highly enjoyable performances of
last year are still with us, and it is to
be hoped that a similar treat is in
store for the students and friends of
the institution.

Report has it that Mr. Caspar
Whitney, who has for some years been
the foremost champion of pure athlet-
ics, will shortly pay a visit to the
South. He is now in the West visiting
the various colleges. The Hustler observes: "It is safe to say that
Mr. Whitney will find little to criticise
in the present management of athlet-
ics in this section. The code of
rules of our intercollegiate
association, as recently revised
and amended, leaves no loophole for
the abuses which have long been the
bane of athletics everywhere."

"Corks and Curls," Virginia's
Annual for 1894-'95, came out with
the reputation of being the best An-
nual ever gotten out in the South and
a debt of \$410.

A series of class games of base-
ball is in progress at the University
of Ga.

HALL AND CAMPUS.

Vanderbilt students will issue a
daily entitled, Commencement Cour-
rier, during the five days of their
Commencement.

Foundations of Belief.

"Shall we ever get through?" sighed
a Freshman,

"With the thought of the flunk
notes galore?"

Shall we ever get safe to the haven
Of rest in the year Sophomore?"

A comforting classmate made answer:
"Of course we are safe; don't re-
pine."

Take courage! Go quick, read your
Bible,

We belong to the 'ninety and
nine.'"

—Cornell Era.

The financial responsibility of the
athletes at Indiana University is
borne by the faculty. Naturally the
management, too, is in the hands of
the faculty, so when a short time ago
a student was elected manager of the
baseball team by the Athletic Asso-
ciation, his election was not con-
firmed by the Athletic Board.

A majority of the Harvard faculty
are in favor of shortening the course
leading to the degree of A. B., from
four to three years.

Prof. E. E. Barnard, the eminent
astronomer and former head of the
Lick Observatory, at Mt. Hamilton,
Cal., has taken charge of the astron-
omical department of the University
of Chicago.

An All-Round Man.

In the class room while students

More brilliant are known,
He finds no great hardship

In holding his hwn.

On the gridiron and diamond

With victories sown

There too he is in it

And holding his own.

And now in the evening

When daylight has flown—

But words are too feeble,

He's holding his own.

—Ex.

To the Freshman.

"Blessings on the little man—

Versant boy with cheeks of tan!

With thy patched up pantaloons

Worn for many, many moons;

With thy greenness and thy gall,

With thy crudeness plain to all;

Thou art but a freshman now

And to senior thou must bow;

But despite thy lowly name

Thou wilt get there just the same."

—Ex.

To make examinations short and
fair, we humbly suggest that we apply
the new discovery in photography

made by Prof. Roentgen. Take the
photograph of the interior of the stu-
dent's head. We earnestly hope
that the adoption of such a method
of examination will not be a source
of uneasiness to those students, who
are such adepts in putting more on
paper than they have in their heads.

The Crimson White says: "Captain Reynolds for the past two weeks
has had the applicants for the team
of '96, at hard work on the field
every evening when the weather per-
mits, and in the gymnasium on bad
afternoons. Everything at the pres-
ent seems to portend a fast team and
a prosperous season for the Crimson
and White." Look to your laurels
Auburn.

Vanderbilt has organized a Basket-
ball league, a series of class games
will be played.

After much discussion the cap and
gown has at last been adopted by
Vanderbilt seniors.

The University of Pennsylvania
and Harvard are keeping up interest
in football by having leading athletic
writers give lectures on various ath-
letic topics in relation to football.

In 1836, according to the catalogue
of that year, the annual tuition at
Yale was only \$33, and the necessary
expenses of a student were estimated
to be from \$150 to \$200 a year.

The curriculum at Columbia has
been changed so that Greek will not
be required for entrance after July 1st
1897, nor will Greek be required in
the course leading to the degree of
B. A.

Penton the great guard who has
captained Virginia's football team for
two years has refused not only to
captain the '96 team but also to play
on it. His reasons are personal ones
Virginia will hardly find his equal.

The Cornell chapter of the Chi Psi
fraternity has purchased for \$45,000
the famous Fiske McGraw mansion
at Ithaca. The mansion cost a quar-
ter of a million and is no doubt the
finest chapter house in the world.

Amherst is to have a course of from
four to six lectures by prominent pub-
lic men on the topics of the day
The first will be delivered by Chaunc-
ey M. Depew.

It is announced that hereafter the
French schools and universities will
open their doors to foreigners and
will conf r upon them the regular de-
grees.

The World's Fair Tests
showed no baking powder
so pure or so great in leav-
ening power as the Royal

Campus Gleanings.

Second term examinations! A word to the wise, etc.

Members of the senior class will be glad to learn that Prof. Le Conte of the University of California, is engaged in revising his well known text book on geology?

It was just 20 minutes to four when "Mike" gave the combination lock to his desk a farewell twist, and prepared to leave the Chemical Laboratory, but Prof. Ross came up just at that time and said something about "time locks."

Prof. L. M. Underwood's lecture on "Florence" in the college chapel was highly interesting and instructive. The subject was admirably illustrated with lantern slides.

Cadets, Alford, Trammell and Edwards have been promoted to the rank of second lieutenants.

The base ball diamond has been put in good condition and practice games are had when the weather permits.

Recent improvements have been made in the new Gym., it is quite a popular resort.

Mr. Romero of Caracas, Venezuela, has recently entered college; he will take a course in English and Chemistry.

In spite of the bad weather, a goodly number of students and towns-people gathered in the college chapel to hear Prof. McKissick lecture on the "new light." A number of original lantern slides were shown and the Prof. discussed the various theories and experiments in a pleasing and comprehensive way. It was a rare treat and it is to be regretted that the inclement weather kept so many away.

The Glee Club has recently been reorganized the officers are as follows: W. R. Shafer General Manager, B. L. Scott Instrumental, W. H. McBryde, vocal, and J. B. Hobdy minstrel. Work will begin immediately after examinations.

His Highness Major Peevey has recently returned from Mobile. They say that the Major is in possession of a rare bit of manuscript which he caught in the carnival city.

Co. K and the "small boys of the town" can be seen almost any afternoon indulging in that infantile game—tops. The entire lot should be fired off the campus.

It is now; "Mike Kelley the Hermit."

The latest matriculate at the college is Senor Mignel Jose Romero of Caracas, Venezuela. He was commissioner for the Venezuela government at the Atlanta Exposition and

has entered here for the purpose of taking a special course in chemistry and agriculture. He registered as No. 299.

Websterian Literary.

Its Progress.

Despite the various entertainments concerts in Auburn to take the boys away from the society, a few firm and zealous workers have ever been ready to contribute to its success, and several good meetings have been held in the past few weeks. After the present term is over, we expect to do faithful and successful work, and a rousing meeting will be held on Saturday evening, March 28th, a series of programs have been arranged for the next month and the boys are invited to come out and aid us with your presence at least. On the 28th, a joint debate between the Wirt and Websterians will be held and the question of Cuba's rights will be discussed. Messrs. Rainey, Mangum and Alford will champion the side of the Web's.

On the night of Feb. 29th, the following subject was discussed: 'Resolved that the south was justifiable in seceding from the union.' After a lengthy discussion, it was decided in favor of the affirmative. It was decided that the society should have a badge and a committee has been appointed to confer with the proper merchants and report on cost. This will doubtless cause more interest to be taken in the work. The new badge will be similar to the one which the society had some years ago.

Last Saturday evening quite an interesting discussion was held on the question of whether it was right to convict on circumstantial evidence. Both sides argued well, but especial praise is due the men on the affirmative for the convincing talks made in defense of their side.

Among the new members received this term are Messrs. Rainey and Grey. Both are worthy men and take great interest in the work of the society. Mr. Rainey is a ready speaker and has made some of the best speeches that we have had the pleasure of hearing in some time.

Let us begin with renewed energy and work more earnestly for our welfare. Come out boys, 'twill you do good.

Foot Ball.

All men still having football goods in their possession, are urged to hand them in immediately. Quite a number of the uniforms are still out which are the property of the Athletic Association. See to this at once.

ALL VERY CHEAP.

A great deal is being said in college papers about abolishing the examination system. And why not? No one is so foolish as to say that a student's knowledge of a subject is estimated by the manner in which he discusses five or ten questions.

Already the leading colleges are beginning to abolish them and it won't be a great while, judging from the college papers, before many others will follow their example.—Ga. Tech.

Query.

Did you ever notice this:

When a fellow steals a kiss
From a righteous little maiden calm
and meek,
How her scriptural training shows
In not turning up her nose,
But in simply turning round the
other cheek?

—Cornell Widow.

You cannot weigh grams with a
grammar,
Or sugar-cure hams with a hammer;
Stew plums with a plummer,
Do sums with a summer,
Or produce any clams with a clamor.

—Ex.

Ice cream he bought his beloved,
And she ate, and she ate, and she
ate,
And her heart she finally gave to him
To make room for another plate.

—Ex.

I press my suit, to call on her,
My trousers are in creases;
I call on her to press my suit,
And find her scorn increase.

—Ex.

Dear Pa, I send, as per request,
My last report to you,
But pray don't think it is the best
Your little son can do;
The standard here so high is deemed
A mark of fifty's fair,
And sixty is as high esteemed
As ninety is elsewhere.

—Ex.

He wrote a verse on "Trilby,"
To keep up with the fad;
The editor declined it
Because its feet were bad.

—Ex.

"I have lost my heart," he whispered,
Gazing in her lovelly eyes;
But the maiden coldly answered,
"Why don't you advertise?"

—Ex.

The Crimson-White "In Absence."

MILLIONS INTERESTED IN ATHLETICS.

Interesting Facts and Figures Unearthed By the A. A. U. Census.

The long-promised census of the Amateur Athletic Union has at length been made public, and, while it onl

partially covers the area contemplated the facts set forth bear gratifying testimony to America's athletic strength. Without counting the two big organizations of Boston and New York and several others which failed to report, sixty five clubs are shown to have an aggregate membership of 22,180, of whom 8,367 are actively engaged in athletics. The value of property involved amounts to \$1,619,595, and the athletic appliances in use are estimated at \$72,939. The Southern, Central and Atlantic associations submitted very complete returns, while the Metropolitan, New England, Pacific and Pacific Northwest association submitted only partial reports or none at all.

The newly formed Southern Association returned a full account of its seven clubs, with a total membership of 3,500, of which number 621 are actively engaged in athletics. Four clubs have an instructor and trainer; twenty-seven class sessions are held weekly for athletic instruction, with an average attendance of 182; six clubs have a gymnasium and a club house. The total valuation of property is given at \$248,000. The athletic apparatus is worth \$19,075.34. This return was made last May, and the association has shown great increase in all respects since that date.—Hustler.

The following complimentary extract is from a letter to Prof McKissick from Mr. W. B. Parrish of N. Y.:

Before I close I wish to express my appreciation of the professional ability and sterling worth of one of your Auburn boys, Mr. W. W. Moore, who has been with me for nearly a year. For three months I left him in charge of the business as well as the technical management of the water works, gas works and electric light works at this place, and, on my return, I find that he has acquitted himself well.

Interstate Drill and Rifle Contest, Savannah, Ga., May 11-16, 1896.

On account of the Interstate Drill and Rifle Contest, at Savannah, Ga., May 11-16, 1896, there is authorized a rate of one limited First Class fare for the round trip to Savannah, Ga., for civilians; tickets to be sold May 9th, to 15th, limited returning May 18th, 1895; (iron-clad signature forms to be used from competitive points,) and for Military companies, Rifle Teams and Military Bands traveling together in uniform in parties of ten or more on a solid ticket, a rate of one cent per mile distance traveled; (or 2 cents per mile round trip) tickets to be sold May 9th, to 11th, limited returning May 18th. In connection with the above, beg to advise that the Military-Interstate Association of Savannah has been organized by prominent citizens of Savannah, and the Association propose to make the occasion very attractive. The said Association will offer handsome prizes for various military and band contests.
